

# Luis Fernando Romero Calero

Cursor Regional Lead, Southeast Asia · Software engineer

Bangkok, Thailand   luisfer.romero.calero@gmail.com   lfrc.me   github.com/luisfer

## Summary

---

Cursor Regional Lead for Southeast Asia. I build developer communities in Bangkok and Phnom Penh and run AI-assisted development workshops. Before that, 15 years as a software engineer and tech lead at Nike, British Airways, Booking.com, and Roche.

## Highlights

---

Cursor Regional Lead, Southeast Asia. Community events and workshops in Bangkok and Phnom Penh.  
Director of Tech at Skills Union (March to June 2026). Edtech for institutions in Singapore and Bahrain.  
15 years as a software engineer and tech lead at Nike, British Airways, Booking.com, Roche, and Deloitte.  
Built cursorthailand.com. Open source: Ubon, Janaru, Authentic Timer.

## Skills

---

**AI & DEVELOPER TOOLS:** Cursor, Claude Code, Windsurf, Claude API, OpenAI API, GitHub Copilot, Prompt engineering, Agentic AI

**PROGRAMMING LANGUAGES:** JavaScript, TypeScript, Python

**FRONTEND CORE:** HTML5, CSS3, Sass/SCSS, Semantic HTML, Responsive Web Design, Accessibility (WCAG, ARIA), Cross-browser Compatibility, Performance Optimization, Technical SEO

**FRAMEWORKS & LIBRARIES:** React, Vue, Next.js, Node.js, Express

**TESTING & QUALITY:** Jest, Vitest, Playwright, Cypress, TDD

**ARCHITECTURE & PATTERNS:** System design, Microservices, Event-driven, RESTful API

**DESIGN & STYLING:** Tailwind, Figma, Lucid

**INFRASTRUCTURE & DEVOPS:** AWS, Docker, CI/CD, GitHub Actions, Git, Vercel, Firebase, Supabase

**DATABASES:** PostgreSQL, MongoDB, Prisma, GraphQL

**PROJECT & WORKFLOW:** Jira, Confluence, Agile, Scrum, Kanban

**LEADERSHIP & MENTORSHIP:** Team leadership, Technical mentoring, Code reviews, Cross-functional coordination, Interviewing

**COMMUNITY & COMMUNICATION:** Event organization, Public speaking, Technical workshops, Developer community building

**LANGUAGES:** Spanish (native), English (fluent), basic German, basic Dutch, learning Thai

**INDUSTRY:** EdTech, eCommerce, Payment Solutions, Banking/Fintech, Retail, Marketplaces, Aviation, Real Estate Technology, IoT

**ATS KEYWORDS:** Cursor, Claude Code, GitHub Copilot, AI-assisted development, prompt engineering, agentic AI, HTML, HTML5, CSS, CSS3, Sass, SCSS, JavaScript, TypeScript, React, Next.js, Vue.js, Node.js, Express, REST API, GraphQL, PostgreSQL, MongoDB, Prisma, Supabase, AWS, Docker, CI/CD, GitHub Actions, Jest, Vitest, Playwright, Cypress, TDD, Accessibility, WCAG, ARIA, SEO, System Design, Microservices, Agile, Scrum, Technical leadership, Developer community

## Selected Portfolio & Open Source

---

### **Authentic Timer** [authentictimer.com](https://authentictimer.com)

Focus timer web app built with Next.js, React, Supabase, and Tailwind. Full-stack solo project from design to deployment.

### **Janaru** [github.com/luisfer/janaru](https://github.com/luisfer/janaru)

Save-game system for AI coding sessions. Trigger words maintain small journal files so future agent sessions resume without re-explanation.

### **Cursor Thailand** [cursorthailand.com](https://cursorthailand.com)

Community platform I built and maintain for the Cursor developer community in Bangkok and Phnom Penh.

### **Ubon** [npmjs.com/package/ubon](https://npmjs.com/package/ubon)

Open-source testing tool for AI-generated (vibe-coded) applications. Ensures reliability and maintainability for code produced with AI assistance.

### **Rosemary.js** [npmjs.com/package/rosemary-js](https://npmjs.com/package/rosemary-js)

Lightweight JavaScript utility library published on npm.

## Experience

---

### **Independent Consultant**

2025 - Present

#### **Fractional Tech Leadership & AI Advisory** · Remote

Fractional technical leadership and AI-assisted development for several companies, 2025 to 2026.

#### **Skills Union — Director of Tech (March - June 2026 · Singapore)**

Led a small engineering team at a Singapore edtech company running cohort-based programs and university partnerships. Shipped platform work for institutions in Singapore and Bahrain, plus a global skills taxonomy tool. Worked directly with the CEO and Head of Product.

#### **Superagent — Technical Lead & Product Consultant (Nov 2025 - Feb 2026 · Bangkok)**

Technical lead for superagent.co, an AI-native rental brokerage in Bangkok. Full-stack architecture (Next.js, TypeScript, Supabase), AI features for property matching and conversational search, database design, and product roadmap.

#### **Dripdrop — Freelance Software Engineer (Jan 2026 - present · Solna, Sweden)**

Station management web app for a Swedish water and wastewater operator. Pumping station documentation, component and maintenance tracking, revision approvals with role-based access, and Zeus SCADA integration. Next.js, TypeScript, Supabase.

---

## **Cursor Ambassador (Bangkok) and Regional Lead, Southeast Asia**

November 2025 - Present

Cursor · Bangkok, Thailand / Southeast Asia

Cursor Regional Lead for Southeast Asia. I build developer communities in Bangkok and Phnom Penh, run Cursor from Zero and Cafe Cursor events, and maintain cursorthailand.com.

Community building, Technical workshops, AI-assisted development

---

## **Senior Frontend Developer**

January 2025 - April 2025

British Airways · London, UK (Remote)

Frontend lead on a fleet management app for aircraft scheduling and runway optimization. React and TypeScript. UI audits that led to approved improvements.

React, TypeScript, Vite, Python, Jira, Confluence

---

## **Technical Lead (Fullstack)**

March 2024 - June 2024

Garaje de Ideas / Roche · Madrid, Spain

Led the Navify marketplace migration from Angular to Next.js. Proof-of-concept as the architectural blueprint. Cross-functional coordination through agile delivery.

Next.js, React, TypeScript, Tailwind CSS, Figma, Lucid, Jira, Confluence

---

## **Solution Architect**

December 2021 - April 2023

Nike · Hilversum, Netherlands

Solution architect for internal supply chain web apps. Led a frontend team. Shipped to five Asian countries in 2022. UI harmonization across EMEA and North America.

Vue.js, React, Node.js, Java, Splunk, NewRelic, Jest, AWS, Jira, Confluence, Lucid

---

## **Senior Software Engineer**

January 2021 - February 2022

Cognizant Benelux · Amsterdam, Netherlands

Consulting for Booking.com and Nike. At Booking.com, migrated partner portal UI from PERL templates to Vue.js. Mentored junior developers and ran technical workshops.

PERL, Vue.js, React, Node.js, Java, AWS, Jira, Confluence, Lucid

---

## Senior Frontend Developer / Full Stack Developer

May 2015 - December 2020

Freelance · Remote

Over 5 years of freelance consulting for international clients across multiple industries.

Deloitte (London, UK): Lead front-end consultant for governmental greenfield project. Built data import/export engine visualization, API integrations, and graph representations using React, Node.js, and Neo4J.

ClearBank (London, UK): Senior frontend developer for greenfield banking platform. Developed critical Vue.js components for a fintech startup that became one of the UK's first clearing banks in 250 years.

Doctorly (Berlin, Germany): Implemented new layouts and UI solutions using Blazor, TailwindCSS, and JavaScript. Provided UI/UX consulting.

Cision / Prime Research (Mainz, Germany): Led front-end development for data visualization projects, delivering technical expertise that enhanced company's analytics capabilities.

Tata / W12 Studios (London, UK): Developed React prototype for Verizon e-commerce shopping cart and created Node.js microservices.

Burnet Institute (Melbourne, Australia): Contributed to Optima Model e-health project using Python and Vue.js.

Nowtilus (Berlin, Germany): Developed Node.js microservices for TalkTalk UK's video-on-demand service, handling license management and catalogue processing.

Other clients: IMWF (Hamburg), Foodspring, Modomoto, HeavenHR, th Data/McKinsey, Accenture

React, Vue.js, Node.js, Python, Blazor, Neo4J, TailwindCSS

---

## Software Developer

August 2013 - April 2015

azeti · Berlin, Germany

Full-stack and mobile developer for IoT startup. Built Social Sensor Cloud web application for sensor data visualization and Azeti Lab Android app for monitoring SonarPlex appliances. Developed Python libraries and migrated Cloud Exporter architecture from PERL. Delivered production web applications and beta Android release.

AngularJS, Java, Spring, Python, Android SDK

---

## Software Engineer (Android / Frontend)

September 2012 - August 2013

Suitepad · Berlin, Germany

Joined as second developer at 4-person startup, contributing to growth to 50+ employees with clients in 15+ countries. Developed Android and Cordova mobile apps for hotel management and room service. Core contributor to Suitepad becoming a leader in hospitality technology.

AngularJS, Java, Spring, PhoneGap Cordova, Android SDK

---

## Education

---

# Ingeniería Informática Superior (Software Engineering)

Universidad de Sevilla · Seville, Spain · 2004 - 2011 · Thesis: Testing and Usability
